

Condiment/Chowder Set Up

Responsible for setting up the Condiments and Chowder Tables in BOTH rooms after the General Set Up volunteers cover and skirt the tables

Condiments:

From back storeroom in gym bring out:

- One box of Tarter Sauce Packets
- One box of Cocktail Sauce Packets
- One box of Ketchup Packets
- One box of Sour Cream Packets (located in the fridge down by the fryers)
- One foil tray for each of the packets—load packets into separate trays, put back stock behind table

Chowder Station:

- Portable Soup Warmer—on wire shelf. Make sure that it is placed at the end of the table but close to the electrical outlet. Move table if needed
- Long metal ladle—needs to be able to reach bottom of soup pot. Check with kitchen on soup pot size. Ladle will be in utensil bins located on tables by the stage
- One box of Chowder bowls—Styrofoam bowls located in the gym storeroom. They are thicker Styrofoam cups with no lip
- Soup spoons—either on the wire cart or in the back storeroom
- Rectangular metal container (like salad dressing metal containers but bigger) —for the soup spoons. Either on the wire racks or in the back storeroom
- Note: if cord to soup warmer is a trip hazard, ask Cary or Tom for a small rug or tape to secure.
